

you deserve the **Best**

Why Shop at House of Lights?

It's Simple. At House of Lights and Home Accents you get the **BEST** of everything!

The Best Quality Products

One thing we never compromise on is quality. At House of Lights you can rest assured that you're buying the best quality products available. We use the industry's most stringent set of quality benchmarks when evaluating which products to sell and will never compromise quality over price. Your complete satisfaction is our #1 goal and we achieve that by only selling quality products.

The Best Pricing

The key to our incredible pricing is through our affiliation with Lighting One, a multi-billion dollar home furnishings buying group. This unique partnership gives us enormous buying power and allows us to pass along significant savings on to you. Come shop with us and I'm sure you'll see that our prices can't be beat.

The Best Service & Support

Our staff of seasoned professionals are here to help you before, during and after the sale. We take pride in exceeding our customer's expectations and have been doing so for nearly a half century. Our team has over 150 years of combined industry experience and are ready to tackle any challenge that comes along.

The Best Selection

House of Lights has Central Florida's largest selection of lighting, fans and home décor merchandise. We source products from thousands of vendors from all over the world and bring their stylish quality right to you. With our beautiful 10,000 sq./ft. showroom and our over 100,000 item product database at your disposal, you're sure to find just the right pieces at House of Lights and Home Accents.

The Best Financing

House of Lights has partnered with Lighting One & GE Money to offer you the best financing programs available. From deferred / 0% interest plans to equal monthly payment plans we have it all. Ask any one of our associates how you can save big money by making your purchase with a GE Money account today!

The Best Shopping Experience Around

By providing the best of everything and compromising on nothing we've been able to exceed our customer's expectations for close to 50 years. Our passion for lighting and home decorating shines through in everything we do. Come shop with us today and take advantage of the **Best** of everything!

We're Here To Help

At House of Lights and Home Accents our services are what set us apart from other companies.

In-Home Design Consultations

Need a little help with your design project? Our staff of experienced and highly decorated design consultants are just what the doctor ordered. House of Lights' free, on-site consultations are a great way for us to help you with layout, size, scale, colors and materials. Our team is ready, willing and able to help help you make that

perfect design statement.

Delivery Services

In our world Delivery is quite a bit more than simply dropping off a package. Once we've finalized your order we immediately begin sourcing your products, grouping them for delivery, labeling them with installation locations and performing quality checks as each box arrives. We triple check your order for accuracy & quality and upon delivery to your home or jobsite we'll completely review each line item of the delivery with you. This level of quality and service is just one more reason it pays to do business with the professionals at the House of Lights.

Installation Services

Once you've found that perfect light fixture or fan now comes the fun part, getting it installed. Why not let our professional installation team handle the project for you? There's really no need to pick up the phonebook and start hunting for an electrician, our staff of highly trained, experienced and licensed installers are considered the experts when it comes to lighting & fan installations. They've been installing the products we sell for nearly a half century and they are considered the best in the business at what they do. They intimately know the products we sell, how they're assembled, how they're installed and most importantly what wonderful effects they'll have on your home when setup correctly. And the best part is the price...each standard installation is only \$99.*

We Are The GREEN Lighting Experts!

The Professionals at HOUSE OF LIGHTS have been providing **GREEN** lighting solutions to our customers for close to 50 years. Being GREEN is nothing new to us. In fact, it's what we do every day. Let us show you how to save money & the environment with our HUGE display of Eco-friendly lighting, fan and accessory solutions.

Compact Fluorescents (CFL's)

Using CFL's are a great way to reduce energy costs, extend the life of your bulbs and protect the environment. CFL's last roughly 10 times longer than traditional incandescent bulbs and are about 80% more efficient. The only drawback is when not using a quality CFL the light output can have a blue or green tint and will not reproduce accurate colors. Come see our CFL display and we'll show you how our quality

CFL's are a step above the rest.

Low Voltage Lighting Solutions

In many applications LED, CFL or traditional incandescent products cannot produce the high level of light output needed for a specific area. Low voltage lighting solutions allow customers to use lower wattage bulbs, in smaller applications and produce large amounts of light while saving energy. Under cabinet lighting, art lighting, recessed, cove and landscape lighting are great areas to use energy efficient low voltage lighting solutions. Come see our huge display of low voltage lighting solutions.

Lighting Controls

Lighting controls and dimmers are an easy and inexpensive way to reduce your energy consumption and increase the lifespan of your bulbs. Ask any one of our sales associates how controls and dimmers can save you money and reduce your power bill.

LED Lighting

We are Central Florida's foremost experts on LED lighting solutions and have been working with this technology for many years. We've partnered with the leading LED manufacturers to bring you the best quality LED products on the market today. We speak the language and can quickly show you why Color Temperature, Color Rendering Index and Lumen Output are key components in selecting the right products for your project. Come see our enormous selection of quality LED products and let us show you why LED lighting is the wave of the future.

Why House of Lights?

It's simple, we're the experts. It's not that we're bragging it's just that we spend the time, money and resources to stay on the cutting edge of the lighting and energy businesses. We have a true passion for reducing energy consumption and love to share our knowledge with you. Through our partnerships with energy saving leaders such as, Energy Star, GE, Lighting One, Philips, The American Lighting Association and countless others, we're able to bring you the best quality, eco-friendly products available today. Give us a chance and I'm sure we can show you how to save money and the environment with our vast supply of green lighting options.
